Get a 3D Mouse for Free!

The first 10 new licenses sold after the release of Pointwise Version 16.03 will receive a 3D SpaceNavigator for free. No forms to fill out, no emails to send. Contest terms can be found [here](#).

What's a 3D mouse? A 3D mouse is an additional motion controller for software that you operate in tandem with a traditional mouse. While you use the traditional mouse with one hand to manipulate the software's user interface, your other hand uses the 3D mouse to push, pull, twist the model or scene in 3D space.

Learn about the benefits of a 3D mouse and more at www.pointwise.com/3Dmouse

[The Pointwise Library](#)

implement advanced meshing algorithms and create new research ideas and proposals. Second, we're seeking someone for our Product Development Team to implement new features in our Pointwise product.

For more details, see www.pointwise.com/jobs.

Know someone looking for a job? Refer him/her to our open positions. If that person is hired, we will give you a \$500 referral fee! Just have the person tell us that you referred him when he initially inquires about an open position.

Pointwise Tricks and Tips

Boundaries of database entities are now selectable for use in other commands, most notably the creation of Coons surfaces to fill holes in the database. This capability is also useful for many other commands. A new Mask icon allows you to toggle their selection.

Happy Meshing!!
